**INSPEKTECH® CIRCULAR:
SITE PROTOCOL for Field Inspectors & Personnel**

The **InspekTech COVID-19 Site Protocol Safety Plan** can be found at the following locations of our website and represent our baseline COVID policy and site protocol action plan for our Insurance clients:

<https://inspektech.com/inspection-public/c19/>

Please note:

- As InspekTech is an Essential Service (see: https://inspektech.com/inspection-public/mt-content/uploads/2021/04/inspektech_travel_essential-services.pdf) we leave it up to the mutual discretion of the Field Inspector and the Insured to determine any additional steps on any given file against the backdrop of our Safety Plan (i.e. where clear site protocols are stated and provided the insured in advance of interior site work).
- This approach precludes: mutual liability, potential human rights violations, forced disclosure of private health information, and is respectful of all parties thereto.
- Our Field Inspectors have also been instructed to weigh any other information they may become aware, to the best of their ability, in order that they might adhere to mutually responsible health parameters when visiting any given site.

Should you have any questions or require clarification, please contact us.
